## SEED GRAIN

*There's concern about the supply of suitable grain for fall seeding.* In the first place, much of the barley and rye as well as some wheat is needed and is being used for feed. This is due to the satisfactory return by its use as feed plus prospects for a smaller corn crop than last year.

Secondly, the quality of most wheat is below that of the past several seasons. Rainy, muggy weather at the time wheat was in the blossom stage provided ideal conditions for heavy infection of wheat scab. This caused grayish colored, shriveled, light test weight grain that requires heavy recleaning with correspondingly heavy cleanout. Most of the diseased kernels will not grow and the rest may start off well but not have the vitality or resistance necessary to withstand adverse weather or soil conditions.

To reduce and control diseases, it is essential that all fall seeded grains be thoroughly cleaned and treated. Lightweight diseased kernels should be removed and the recleaned seed treated with Ceresan to reduce seedling blight, that may be caused by scab, and to prevent stinking smut. As always, Scotts Seed is heavily recleaned, high in germination and thoroughly treated.

**THORNE WHEAT** - A beardless, red chaffed variety, stiff strawed and has consistently out-yielded other varieties. Widely used in Ohio, Pennsylvania and West Virginia. With a lot of scab present this year, test weights have been lower than Trumbull and bearded kinds but yields per acre have continued to exceed those of other varieties.

**NIGGER WHEAT** - A bearded, white chaffed variety that has proven consistently winterhardy and high in test weight per bushel.

**WINTER BARLEY** has proven less winterhardy than wheat and rye, and may be used where the weather isn't too severe. It is usually sown one to two weeks earlier than wheat; is not damaged as much by Hessian fly and is most satisfactory on productive soils. It should be cut before fully ripened because of the straw-breaking unless it is to be combined. The normal rate of seeding is 6 to 8 pecks per acre.

**RYE** is hardier than wheat; may be sown later in the fall and is attacked by fewer insects and diseases. It is often seeded early and used for fall pasture. It may again be pastured in the spring, plowed under for green manure or left for grain. Usually seeded at the rate of 6 to 8 pecks per acre.

Scotts Farm Bulletins on Fall Sown Grains is enclosed. We hope you'll find it interesting. Copies will be sent to any neighbors and friends whose names and addresses you care to send us. Our fall quotations are on the inside pages and if you have questions or there is information we can supply, please write.

Yours truly

O M SCOTT & SONS CO

# Seed Price List

"SCOTTS" grade is the highest quality seed available. It is carefully selected and thoroughly recleaned. Noxious weed free. May contain 0.10% to 0.15% other crop seed and in most cases will test 99.75% pure.

# August 12, 1943

SPECIALS: The grades marked "Special" may be slightly off in appearance or contain one or two percent of other clovers or crop seed. This seed is clean and perfectly safe to sow.

*Seed prices subject to prompt acceptance*

## RED CLOVER

Scotts Medium Red .....	\$22.00 bu.
Special Medium Red.....	21.00 bu.
Scotts Midland .....	25.00 bu.
Scotts Mammoth .....	21.00 bu.
Special Mammoth .....	20.00 bu.
Mammoth (with 6% Sweet)	18.50 bu.

## ALSIKE CLOVER

Scotts Alsike .....	\$23.00 bu.
Special Alsike .....	22.00 bu.

## SWEET CLOVER

Scotts Yellow Blossom .....	\$ 8.00 bu.
Scotts White Blossom Type .....	8.50 bu.
Special Sweet (Yellow).....	7.50 bu.

## OTHER CLOVERS

Crimson .....	\$ 14.75 cwt.
Louisiana White .....	75.00 cwt.
White Dutch (Domestic) .....	65.00 cwt.
Ladino .....	135.00 cwt.
Wild White .....	125.00 cwt.
Birdsfoot Trefoil .....	135.00 cwt.

*Always inoculate alfalfa and clover seed*

## ALFALFA

We will have Scott quality Certified Grimm and Verified Origin hardy Alfalfas as soon as the new crop is available. Quotations upon request.

## LESPEDEZA

Scotts Korean—Unhulled .....	\$10.50 cwt.
Scotts Korean—Hulled .....	13.00 cwt.
Scotts Sericea—Hulled .....	28.00 cwt.

## Legume Inoculation

### Alfalfa and Sweet Clover

½ bu. size.....	\$ .30 ea.
1 bu. size.....	.50 ea.
2½ bu. size.....	1.00 ea.

### Red, Alsike, White Clover

½ bu. size.....	\$ .30 ea.
1 bu. size.....	.50 ea.
2½ bu. size.....	1.00 ea.

### Vetch and Field Peas

½ bu. size .....	\$ .25 ea.
1 bu. size.....	.35 ea.

## New Improved Ceresan

### For Treating Wheat, Oats and Barley

1 pound can .....	\$ .80
4 pound can .....	2.70
½ ounce treats one bushel	

## TIMOTHY

Scotts Timothy .....	\$4.00 bu.
Special Timothy .....	3.60 bu.

## RYE GRASS

Domestic .....	\$13.00 cwt.
Perennial .....	22.00 cwt.

HAIRY VETCH.....	\$15.00 cwt.
------------------	--------------

## PASTURE GRASSES

Kentucky Bluegrass ( <i>Fancy</i> ) .....	\$29.00 cwt.
Canada Bluegrass .....	31.00 cwt.
Redtop ( <i>Fancy</i> ) .....	16.00 cwt.
Orchard Grass .....	35.00 cwt.
Reed Canary Grass.....	31.00 cwt.
Meadow Fescue .....	29.00 cwt.

### BROMEGRASS—Canadian

17.00 cwt.

## PASTURE MIXTURE

.... \$27.00 cwt.

Early fall is the ideal time to sow most pasture grasses. Scotts Pasture Mixture for fall is a blend of the most desirable pasture grasses. Contains Kentucky bluegrass, redtop, perennial ryegrass, timothy, orchard grass, Louisiana white clover, Ladino clover and alsike. Sow 20 to 25 pounds per acre for establishing a new pasture and about half that amount for reseeding an old pasture.

## Scotts TREATED SEED GRAINS

All orders for Seed Wheat or Barley will be treated with Ceresan without extra charge. This treatment is recommended by the U.S. Department of Agriculture and State Experiment Stations for the control of certain smuts and many other seed borne and seedling diseases. Ceresan treatment usually improves stands, yields and quality of grain.

### WHEAT—60 lbs. to bushel

	1-15 bu.	Over 15 bu.
Thorne .....	\$2.80 bu.	\$2.70 bu.
Certified Thorne .....	3.05 bu.	2.95 bu.
Fulhio .....	2.80 bu.	2.70 bu.
Bearded .....	2.70 bu.	2.60 bu.

### WINTER BARLEY—48 lbs. to bushel

	1-15 bu.	Over 15 bu.
Winter Barley .....	\$2.05 bu.	\$1.95 bu.
Winter Barley, Ohio No. 1.....	2.25 bu.	2.15 bu.

### RYE—56 lbs. to bushel

	1-15 bu.	Over 15 bu.
Seed Rye .....	\$2.00 bu.	\$1.90 bu.

## Scotts HYBRID SEED CORN FOR SPRING OF 1944

We are now accepting orders for delivery next March or April. The following special prices for advance booking are effective only until October 1, 1943. A deposit of 10% should accompany your order and the balance will be payable at the time of shipment. Play safe—order your Scotts Hybrid Seed Corn NOW.

### EARLY MATURING HYBRIDS

	Round Grades	Flat Grades
Ohio M15 .....	\$5.00 bu.	\$7.00 bu.
Ohio M34 .....	5.00 bu.	7.00 bu.
Ohio K24 .....	5.00 bu.	7.00 bu.
Ohio K35 .....	5.00 bu.	7.00 bu.

### MEDIUM MATURING HYBRIDS

	Round Grades	Flat Grades
Iowa 939 .....	\$5.00 bu.	\$7.00 bu.
